

Sales of resin on the effects of earthquake

March 31, 2011

Dear our customers,

We would like to offer our deepest condolences to all those affected by the earthquakes in the Tohoku region.

And we also thank you for your concern for the earthquake in northeastern area of Japan.

In response to the disaster, our manufacturers of raw materials affected.

Accordingly, the lack of raw material for TSR resin clearly existed and we are unable to supply resin timely.

Fortunately we have some stock of raw material in the warehouse, so at this moment we can supply it as usual. However this situation could not last long.

We are very sorry for inform you, however we limit the amount of resin supply to only 20Kg per one customer/one type temporarily until start manufacturing normally.

Thanking for your kind understand the above situation and attention, we look forward to serving you and hope it will be back soon.

We will make an effort to recover from tragedy earthquake as soon as possible.

Sincerely yours.

CMET Inc.
